

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Electronics & Communication Engineering	Vignan's Institute of Information Technology	2022–2025	9.00
12th BIEAP	Physics, Chemistry, & Mathematics	Sri Gayatri College	2022	9.13
10th - CBSE	-	Little Angels school	2020	7.0

WORK EXPERIENCE

- **Hardware Intern** [Indo German Institute of Advanced Technology] Apr-May 2024
 - Coordinated in a team of four to complete internship training program on **Embedded systems design using ARDUINO** as a part of the **Microcontroller programming**
 - **Designed and built an Autonomous robot** with obstacle avoidance capabilities using **Arduino**, enhanced my skills by creating a robotics project with sensor based navigation and obstacle avoidance
 - **Integrated the microcontroller with code for obstacle avoiding and used ARDUINO platform to code** and integrated the sensor data and motor control
 - **Skills Acquired:** Arduino Programming, Motor Control, Microcontroller Programming, Sensor Integration, Robotics & Autonomous Systems, Team Collaboration
- **Software intern** [Octanet services PVT LTD.] May-june 2024
 - **WEB DEVELOPMENT INTERN** Have done a project (Hoodie Buddy) with the knowledge of internship program **Utilized HTML,CSS,JAVASCRIPT,BOOTSTRAP** for creating a dynamic webpage
- **Software intern** [Cranes Varsity] May-june 2025
 - **Data Analyst Intern. Working on real-world data analytics projects using Python** Learning and applying key tools like Pandas, Numpy, Matplotlib, and Seaborn for data cleaning, analysis, and visualization.
 - Gaining hands-on experience in good insights from datasets and building data-driven solutions. Gained hands-on experience on jupyter notebook.
 - **Skills Acquired:** Python, Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Data Analysis, Data Visualization, Jupyter Notebook

PROJECTS

- **E-Commerce Fashion Landing Page (Puma-Inspired)** [Prof. K. Poornima] Jan-Feb 2025
 - Designed and developed a **responsive fashion landing page** using **HTML, CSS, and JavaScript**, with dedicated sections for **Men, Women, and Kids** to mimic real-world e-commerce layouts
 - Implemented a **modern navigation bar with category-wise routing** (e.g., New, Sport, Collaborations), ensuring seamless layout and **mobile responsiveness**
- **Clinical Data Analysis for Diabetes Prediction** [Prof. Santosh Mahapatro] Feb-Apr 2024
 - Executed a data science project focused on **predictive modeling for diabetes classification** using real-world medical datasets
 - Performed comprehensive **EDA and feature engineering** on clinical variables (e.g., Glucose, Insulin, BMI), visualizing trends and distributions using **Seaborn and Matplotlib**
 - Engineered a **Tkinter-based GUI** to display real-time prediction results and model comparison for clinical decision support
 - Evaluated model performance using metrics like accuracy, precision, recall, F1-score, and ROC-AUC, achieving up to 85 percent accuracy with the Random Forest model.
- **Cricket Match Scoreboard Simulator in C** [Prof. P. Sandeep] May-June 2025

- Developed a **console-based Cricket Scoreboard Simulator** in **C language** to manage runs, wickets, overs, and target tracking across two innings
- Applied **structures, loops, conditional logic, and modular programming** for match flow control, toss selection, and winner determination
- Practiced manual memory management, input validation, and use of nested conditionals and loops for accurate gameplay simulation.

POSITIONS OF RESPONSIBILITY

- **Class Representative** [*Vignan's Institute of Information Technology*] *Aug 2023 – May 2024*
 - **Elected Class Representative** during 2nd year, acting as a key liaison between students and faculty to address academic and administrative concerns
 - **Coordinated class-level communication, feedback, and issue resolution**, ensuring smooth information flow and supporting departmental announcements and event participation

CERTIFICATIONS

- Achieved **NPTEL certification** in **Data Structures using Python**, demonstrating strong foundation in algorithms and data handling
- Completed all modules of the **Cisco Networking Essentials** certification, covering fundamental networking concepts and configurations
- Secured an **IBM certification in Machine Learning with Python**, involving practical implementations of supervised and unsupervised learning models
- Earned an **edX certification** for completing the course on **HTML Fundamentals**, covering structure, tags, and semantic web design

TECHNICAL SKILLS

- **Languages:** Python, C, java(Beginner), Verilog (Beginner), MySQL, Web development.
- **Tools:** Jupyter Notebook, GDB , VS Code, GitHub, Microwind, DSCH, Xilinx, MATLAB
